

3 Oregon Youths Die in Crash

NOTES FROM A CITY EDITOR'S DAYBOOK—The answer given some protesting taxpayers at Tuesday night's council meeting has a familiar ring.

They were present at the session protesting that a cattle yard in their neighborhood constituted a public nuisance. Their complaints, twice aired at city council meetings, consisted of objections to the odors arising from the yards, noisy trucks, the bawling of the cattle, etc.

Of course, their complaints don't constitute grounds for prosecution under city statutes governing public nuisances. It takes proof that the situation is real. Otherwise, law-abiding citizens would be the scapegoat of every crochety householder who could grab a telephone and call the police.

However, they are entitled to a better answer than was afforded by our city attorney. He told them, in effect, to file a formal complaint and that the city would take action. In other words, no formal complaint, no action. The city must have bona-fide witnesses, the city attorney said.

This smacks of the slot machine counties where citizens are told by prosecutors or sheriffs that they must file a complaint before owners of slot machines are brought into court. They don't suggest that they, the law enforcement officers, might amble over to the joint in question to see if gambling devices are in operation. It's this see-nothing, do-nothing attitude that is infuriating to citizen-taxpayers.

In the case of the alleged odor-causing cattle yard, it would behoove the mayor, or whoever is responsible for city, township or county health laws, to wander over to the territory and open a critical nostril. The health officer, or whoever has that responsibility, could do his own bit of investigating and would have the proper authority to deal with any situation he may find.

If the cattle yard needs cleaning up, it should be told to do so. If it is a well-run operation then it could be given a clean bill of health publicly and the current complaints told to go jump in the lake.

Violators of city ordinances can be classed as trespassers upon the peace, tranquility, health and safety of all the residents of the city. A health menace in a certain section of the community is certainly a menace to all in the area.

It would seem unnecessary for an honest citizen to go beyond asking for an investigation of certain situations before stirring the constituted authorities into action.

Ease Up on Horsepower, AAA Asks

WASHINGTON (AP)—The American Automobile Assn. called on the nation's car manufacturers today to ease up on speed and horsepower, and to put more emphasis on safety, in forthcoming models.

A resolution adopted unanimously at the AAA's 53rd annual meeting said the great need today is for "ways and means of protecting the driver against his own mistakes."

The organizations said "reasonable reserve power" is desirable "for overtaking and passing, and in emergency conditions," but it declared:

"Power above that would seem to impose on the car user an unwarranted potential hazard."

Spot Typhoon

MANILA (AP)—Typhoon Kate, with winds up to 135 miles an hour, was reported today 145 miles northeast of Luzon and moving toward the South China Sea.

Dulles Thinks World Near Era of Peace

Argentine Leaders in Peace Plea

Forget Past, Says General Lonardi, Leader of Revolt

BUENOS AIRES (AP)—Maj. Gen. Eduardo Lonardi's new Argentine government appealed today for the rebuilding of the revolt-divided nation through "peace and work . . . in the pious light of forgetfulness."

Lonardi, 59-year-old commander of the brief revolt which toppled Juan Peron after a decade of dictatorship, was scheduled to fly to Buenos Aires from his native Cordoba Friday to be installed formally as provisional president.

The appeal for peace came from the Cordoba radio "Voice of Liberty," which said, "It is better not to talk of the past, as our slogan is 'There are neither victors nor defeated.'"

Lashes Peron Referring to ousted President Juan D. Peron, the broadcast lashed out at the "insane egotism of a man who did not control his ambition and tried to throw down what was dearest, to the Argentine people . . ."

The peace agreement concluded Wednesday provided for Lonardi and other rebel leaders to take over from the junta of pro-Peron generals which took control of the central government after Peron's resignation.

Peron was reported to be still aboard the Paraguayan gunboat in Buenos Aires harbor where he found refuge Tuesday. The new government did not indicate whether it would persist in previous rebel demands that he be surrendered or let him escape into exile.

Fate Unknown The announcement that a peace agreement had been reached made no mention of Peron's fate.

An officer of the gunboat told a reporter Peron "talks and even jokes with us, but he never says anything about the situation—except about not wanting anything more to do with it."

Lonardi is a veteran army man and a long-time Peron foe. He retired from the army in 1951 after strongly protesting what military men termed the "petticoat rule" of Peron's late wife, Eva.

Lane Offers Resignation

CHICAGO (AP)—Frank Lane, general manager of the Chicago White Sox, sent in his resignation today and asked to be released from his contract Oct. 15.

Lane, whose contract with the club does not expire for more than five years, sent his request to Mrs. Grace Comiskey, president of the White Sox.

Jilted Suitor Slays Girl

Elgin Phone Operator Shot While in Tavern

ELGIN, Ill. (AP)—A 19-year-old telephone operator was fatally shot as she sat in a crowded tavern early today and a prosecutor said a rejected suitor admitted the slaying.

Patricia Schwartz, who was in the tavern with a sailor home on leave, toppled from the bar after she was shot in the head once.

State's Atty. John C. Friedland of Kane County said Robert G. Hoffman, 20, admitted firing the shot from a distance of about three feet.

Former Neighbor Hoffman, a friend of the Schwartz girl most of his life and who were former next door neighbors, had entered the South End Tap about 12:45 a.m., about 15 minutes before closing.

Marciano To Defend Next June

NEW YORK (AP)—Heavyweight champion Rocky Marciano, unmarked except for a red blemish under his left eye, said today he would defend his title again next June against one of two opponents—Bob Baker, Nino Valdes, Hurricane Jackson, or Floyd Patterson.

Asked about dressing room statements after knocking out Archie Moore in the ninth round of their title battle last night, Marciano said:

"All I said was that a few people would like to see me stop! My mother and a few of my friends. I said it was a thought."

In answer to a direct question, Marciano said he had no thought of retiring at the present time.

When he was asked to expand on his future plans, Manager Al Weill interrupted to shout:

"He said no, that's definite. He's not retiring."

Cases Show A Decline

WASHINGTON (AP)—New polio cases reported last week to the public health service totaled 1,950, continuing the slight weekly decrease first recorded early this month.

In its weekly report today, the health service noted too that the total included 13 delayed reports from Missouri.

Secretary Addresses UN Assembly

Sees 'Substantial' Improvements Since Meeting Last Year

By MAX HARRELSON

UNITED NATIONS, N. Y. (AP)—Secretary of State John Foster Dulles today declared the world may be entering a decade of peaceful change which will spell the end of the cold war.

In a general policy declaration before the U. N. General Assembly, the secretary of state stated that the international atmosphere had improved substantially since the 1954 Assembly session and that there was a good chance for constructive decisions during the coming months.

He expressed the belief that the situation was ripe for a solution of the German unification problem and that European security was now better than at any time in history.

"Favorable Trend" The situation in the Far East, he said, also was following a "favorable trend"—thanks to efforts of the U.N. and other governments and individuals to settle differences between Red China and the United States.

"The will of the world community may have operated to avert another war, the scope of which could not surely be limited," Dulles said.

The secretary of state appealed to the Assembly to endorse President Eisenhower's proposal for an exchange of military blueprints between the United States and Russia and for aerial inspection on a mutual basis.

This, he said, would provide a basis for a solid advance toward the goal of world arms reductions.

10-Year Conflict Dulles spoke of the 10 years of cold war conflict in which the world was beset by limited wars, subversion, arms races and inflexible attitudes.

"That phase may now be ending," he said.

"I believe that all four of the heads of government, who were at Geneva, wanted that result and that each contributed to it. In consequence, a new spirit does indeed prevail, with greater flexibility and less brittleness in international relations."

He declined to say which country had gained most at Geneva, but declared that if the improved atmosphere is to be permanent all must gain.

"The summit meeting, if it is to be historic, rather than episodic," he said, "must usher in an era of peaceful change."

Asks Cooperation He said this era should be one in which governments would renounce the use of war and subversion, accept orderly evolution

Death Strikes in Early Morning

DRAMATIC PHOTO OF DEATH—William C. Whitmore, 22, rural Oregon, is shown behind the steering wheel of his 1950 model car after it struck a tree near Oregon today, killing himself and two companions. This gripping photo was taken by Paul Behan of the Ogle County Republican-Reporter who was on the scene shortly after the accident. It conveys more than would a thousand words, the stark tragedy that stalks our highways. The spectator in the photo is unidentified.

Russ Premier Sends Message To President

WASHINGTON (AP)—A personal message from Russian Premier Nikolai Bulganin to President Eisenhower was under study today while a UN Disarmament subcommittee marked time in New York.

Officials here declined to discuss the message beyond confirming that it had been sent through the State Department to the President's vacation headquarters in Denver. They said they understood copies went also to British Prime Minister Anthony Eden and French Premier Edgar Faure.

London dispatches said a message to Eden dealt with disarmament.

Meanwhile a U.S. spokesman at United Nations headquarters in New York disclaimed knowledge of the message but announced a one-day postponement of the Disarmament subcommittee meeting. That group had been planning to wind up its talks today. The talks have been stalemated in recent days.

The United States has been pushing President Eisenhower's plan for free aerial inspection and an exchange of military blueprints.

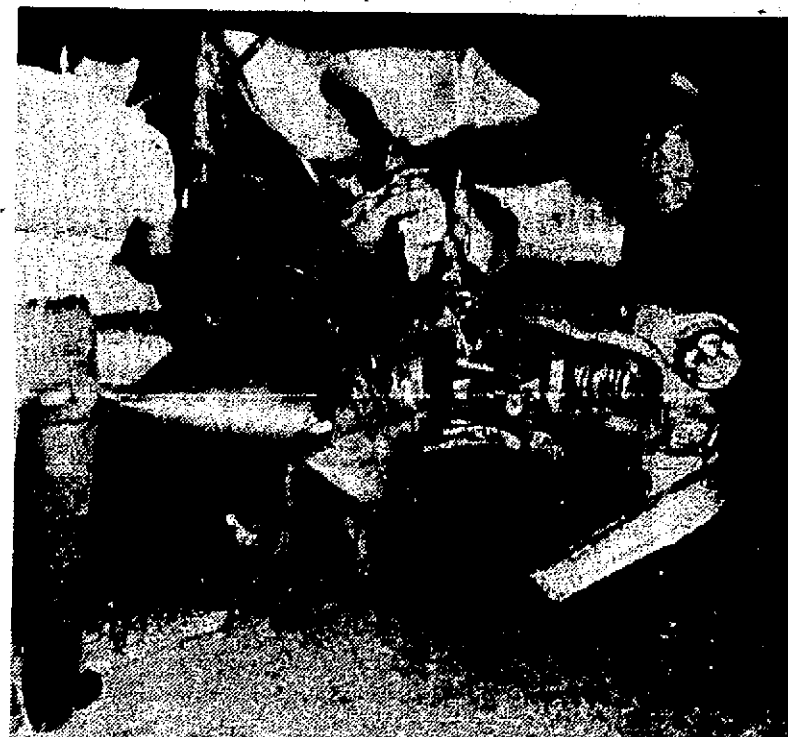

Beans Boom

CHICAGO (AP)—Soybeans boomed as much as 10 cents, the daily limit, in extremely active dealings on the Board of Trade today.

The wild buying spree in beans spread into other grains, although they never advanced as much as soybeans and they fell back from their best levels before the close.

Mother Takes Stand, Says Slaying Victim Is Her Son

SUMNER, Miss. (AP)—Mrs. Mamie Bradley testified today she positively identified her son's body when it arrived in Chicago for burial after being pulled from the Tallahatchie river.

"I looked at the face very carefully . . . I just looked at it very carefully," the 33-year-old mother said softly.

"I was able to find out that it was my son, Emmett Louis Till."

Second Witness

The state called Mrs. Bradley as its second witness today to bolster identification of the body as being Till's. The identification is a major point in the state's case against two white men accused of murdering the 14-year-old Negro boy. The defense is expected to contend the boy whistled or made off-color remarks at a white woman.

Mrs. Bradley began crying as Dist. Atty. Gerald Chatham handed her a picture of the boy's body. She said she was positive the body in the picture was her son.

Roy Bryant, 21-year-old storekeeper in nearby Money and his 26-year-old half-brother, J. W. Milam, are accused of murdering the Negro boy and dumping his body into the river.

Identifies Ring

Lawyers showed her a ring taken from the body after it came from the Tallahatchie River Aug. 31. She identified it as her son's ring.

The silver signet ring is vital in the state's attempt to prove the body in the river was young Till's. With the jury out of the room J. J. Breland, chief defense attorney, questioned Mrs. Bradley about instructions she gave her son before he came to Mississippi.

"I told him that in coming down South that he would have to be careful at all times . . . To say 'yes, sir' and 'yes, ma'am' at all times," she replied.

should be very careful," even to the point of kneeling in the dirt. "Did you coach him . . . not to insult 'women'?" Breland asked. "I just said white people."

Rules Out Testimony

Judge Swango rules the testimony about her coaching would not be presented to the jury. He also cut off all questions about what newspapers she subscribed to in Chicago.

While the trial entered its fourth day in the Tallahatchie County Courthouse, Dist. Atty. Stanny Sanders in adjoining Sunflower County said he was investigating a story which indicated young Till was killed on a plantation near Drew, Miss.

This presented the possibility the trial was being held in a county in which the killing did not take place.

Tree Seedlings to Be Sold by State

SPRINGFIELD, Ill. (AP)—About 10 million tree seedlings will be sold at cost for reforestation and wildlife planting from two Illinois state nurseries, the forestry division said today.

Orders may be placed through next April. Species available include pines, black locust, black walnut, cottonwood, osage orange, red cedar, ash, red gum, sycamore, tulip, poplar and bald cypress.

Auto Spins Off Road, Strikes Tree

Brings Ogle County Auto Death Count To Five in Month

OREGON—(Special)—Three rural Oregon youths were killed instantly here early today when the car in which they were riding missed a curve near the northern city limits and crashed into a tree.

Dead are: William C. Whitmore, 22, son of Mrs. John Whitmore; James Himes, 16, son of Mrs. Gilbert Himes Nichols; and Glenn Smice, Jr., 16 son of Mr. and Mrs. Glen Smice, Sr.

The mishap occurred about 12:30 a. m. east of the Ogle county fairgrounds on Rt. 2.

The car, which was owned and driven by Whitmore, traveled 165 feet off the highway before striking the tree head-on. The south-bound auto also snapped off a small culvert post en route to the tree.

The impact spun the 1950 model car around and sent it part way down an embankment bordering the Rock River.

Pinned in Seat

State, county and local authorities found Whitmore's body pinned between the seat and the steering post, Smice in the back seat and Himes on the ground.

Patrolman Robert Fischer and Ogle County Deputy Sheriff Ed Lang estimated the car must have been traveling at a high rate of speed. The car was demolished.

The auto's speedometer was jammed at 80 miles an hour. Not one of the car's four tires had a trace of tread on them. They did not blow out, however.

The triple tragedy ran Ogle county's auto death toll to five so far this month, according to police records.

The youths reportedly had been riding around Oregon for several hours prior to the crash. Police are checking a report that the youths had driven to Whitmore's house for something to drink and were returning to Oregon when the mishap occurred.

Inquest Friday

Ogle County Coroner Morris Roe, Forreston, has scheduled an inquest for 7 p. m. Friday in the supervisors' room in the courthouse.

Ogle County Deputy Sheriff Dallas Twigg and Oregon Police Officers William Burritt and Don Young joined Fischer and Lang in the investigation.

Funeral services for Whitmore will be held at 2 p. m. Monday in the Farrell Funeral Home with the Rev. Arnold Johnson officiating. Burial will be in Riverview cemetery.

He was born Feb. 26, 1933, the son of John and Celia Pearson Whitmore. He is survived by his mother and several brothers and sisters.

He had been employed as a machine operator by the Rockford Bolt and Steel Co., Rockford. Friends may call in the funeral home Sunday evening only.

Confederate Flag Flies From Carrier

NORFOLK, Va. (A) — The Stars and Bars waved in the blue off this port Wednesday as a ceremony was held aboard the carrier Ticonderoga honoring Robert E. Lee and the new 30-cent Lee stamp.

It marked the first time the Confederate flag has flown from an American warship.

Abraham Lincoln delivered his immortal Gettysburg Address on Nov. 19, 1863.

Mink Jeans Newest Thing For Gold-Totin' Cowboys

ALBUQUERQUE (A) — Davy Crockett, as any red-blooded American boy knows, had his fur cap.

And it seems that every woman, as many a hard-working spouse knows, dreams of a fur coat.

Well, men, your day has come!

When the little woman shouts for the fur and the young unchoruses for a genuine Davy Crockett coonskin cap, draw yourself up proudly, give 'em a stone-eyed stare, and proclaim:

"Now look here: I haven't even

building, added the rest for a complete ensemble.

"I wanted something real unusual and outstanding," he said "I'll probably have to hire a couple of guards."

The entire outfit is valued at \$10,000.

The blue jeans, costing \$3,500, are lined with silk.

"They had to get 22 matched skins to make the blue jeans," Goldman said. "You have to admit, they're luxurious if you like mink."

The cowboy buckle, made entirely of gold and silver and richly studded with jewels was fashioned by a silversmith. It costs \$1,000.

The boots come in sets of six pairs, \$1,000 a pair, and a Stetson hat will run \$100.

Arty Eggs

ALBA, Mich. (A) — Wilbert Taylor isn't sure whether he's an artist whose hobby is egg collecting or an egg collector whose hobby is art.

Taylor says if art doesn't make a living for him he always can put the turkeys back to work making eggs.

Lately 44-year-old Taylor has been painting the turkeys, selling the paintings and once and a while wandering out to pick up the eggs.

Taylor says he started farming for a living and picked up his painting technique from reading a few paper-backed books on the Old Masters.

Capt. Jack Sez:

Police Officers Are Human Too

Police Department in Action Extends Invitation to Observe

Today, I would like to tell you about your police department and a few of its operations. To begin with, the men serving you as policemen come from many walks of life. Some were mechanics, truck drivers, factory workers, janitors, farmers, cooks, just to name a few.

Eleven of the 12 men on the force are married, eight of whom have children.

You ask, so what? It means that these men are not supermen nor are they ogres. They are working men, family men, just like you. They have a job to perform, for which they receive some schooling, but learn many of their duties on the job.

Sometimes the duties are dangerous. At other times these duties are easy, sad, happy, boring, humorous or even nasty. Sometimes it is a combination of these things. One thing is sure, the duty will be interesting whenever it deviates from the routine. Perhaps this is the reason most policemen stick with a job that is often thankless and demanding—both mentally and physically.

Average List

Here is an average list of your police department's accomplishments each week. Your policemen will patrol 1,000 miles of city streets, make 110 arrests, investigate 35 auto accidents, write 63 traffic violation notices and 600 parking meter violation tickets.

In addition, they will make reports, keep records, maintain files, make investigations, attend police schools, be proficient in photography and fingerprinting and operate radio and speed checking equipment.

Your policemen are on call 24 hours a day. Each call must be answered and its problem solved, whether it be for animals, noise or a family squabble because it is important to someone.

Here's Invitation

Your police department is happy to extend this invitation to any and all mature individuals who are interested to see at first hand just how their police force operates.

On a first come, first served basis, a tour of duty will be arranged on either the evening or late night shift for each interested party. You will ride in a squad car on patrol and be present for any calls they may have.

As there are only two squad cars, we ask that you call the station and make arrangements with the officer-in-charge concerning date and time.

Horse-Lover Indicted for Bank Fraud

LOS ANGELES (A) — Roscoe D. Coon, horse-loving vice president and cashier of a desert town bank that closed July 25 has been indicted on 25 counts of embezzlement misapplication of funds and false entries.

This is the most fantastic embezzlement case which has ever come before local authorities," said U. S. Atty. Laughlin E. Waters. "Apparently the shortages go back to 1953, and we have been unable to find evidence that any other person was involved."

Federal authorities said the Joshua Monument National Bank — the only one in the desert community of Twentynine Palms — closed after an audit showed a shortage of \$678,000.

Waters said Coon, who owns homes at suburban Altadena and Twentynine Palms was arrested at the Del Mar race track where he had a racing stable valued at about \$150,000.

15 Dead in Air Crash At Tripoli

TRIPOLI, Libya (AP) — Fifteen persons were killed early today in the flaming wreckage of a British airliner which clipped tree-tops and crashed as it was landing at Tripoli's Idris Airport.

The British Overseas Airways Corp. announced in London that the dead included 13 passengers and 2 crew members, while 27 passengers and 5 of the crew escaped.

A BOAC spokesman declined to give the nationality of the passengers until next of kin were notified.

The plane, a four-engine Argonaut, left London, Wednesday afternoon for Lagos, Nigeria, in West Africa. Tripoli, the Libyan capital, is on the Mediterranean coast of North Africa.

Survivors were taken to the British military hospital in Tripoli.

The wreckage of the plane was spread over 100 yards. Ten hours after the crash it was still smoldering.

It was believed that some passengers fell out and that others jumped to the ground as the plane crashed.

BOAC Capt. R. D. E. Griffiths, who took over as pilot of the plane when it landed in Rome, was reported injured — but not seriously.

Third of a Series:

TV Manner Necessary for 1956 Presidential Race

It'll Be Drama All the Way, Experts Predict

By DON WHITEHEAD

WASHINGTON (AP) — The big brains in politics have a worrisome problem coming up because of television. Its use is going to turn the 1956 presidential campaign into one of the most widely viewed dramas ever played on the American scene.

The problem is this:

1. What is the best way to present the candidate on the TV screens in millions of homes in a folksy, seemingly unrehearsed manner?

2. And, how can these appearances be carefully staged and rehearsed to capture all the drama of the moment without the production appearing too slick and contrived?

Must Be Actor

It's a real problem. A candidate in these days must be a better-than-fair sort of actor. The most popular political productions seem

to be those with the intimate, homespun atmosphere overlaid with by such obvious sincerity that no one can overlook it or fail to be impressed.

Even if a candidate is naturally homespun and sincere, it doesn't always register before a camera. And to make it register requires some acting ability.

The truth is that presidential candidates—and candidates for Congress too—must have "television appeal" in the new scheme of things. This means developing a knack for acting before a camera.

During the 1952 campaign, there was a good deal of talk that "the hucksters" had begun to take over in selling a political candidate to the people. The Democrats particularly leveled the charge against the Eisenhower campaign.

Tricks in Trade

But there are tricks to every

trade and the politicians of both parties have had to turn to the merchandising experts for advice and direction in putting their best TV foot forward.

The agency which represented the Republicans in 1952 was Batten, Barton, Durstine and Osborne of New York. The Democrats depended on the Joseph Katz Agency of Baltimore. Both parties again will have merchandising experts behind the scenes in the next campaign. It appears they have come to the political platform to stay.

It might be argued with some validity that television in 1956 will have twice the impact in politics that it had in 1952 because more than double the number of voters will be watching TV screens.

No one yet knows just how great an impact TV has in the success or failure of a political candidate. But neither party can take chances by not putting its best TV foot forward.

Ike, Dick, Relaxed

Both President Eisenhower and Vice President Nixon have developed a relaxed, informal manner before the television cameras. And Adlai Stevenson, the 1952 Democratic nominee, while not so folksy

Korean Veterans Can Now Replace Lapsed Insurance

Veterans who served during the Korean conflict and lost their World War I or II GI Term Insurance because their policy term expired while in service or within 120 days after their discharge may now apply for replacement of that term insurance under a new law.

The new act is Public Law 194, 84th Congress, and to those veterans who may benefit by its provisions, knowledge of the new law is of utmost importance because of the time limitation it allows to apply for replacement of expired term policies.

Under the new act, veterans whose GI Term Insurance expired after April 25, 1951, either while they were in active service, or within the 120 days after separation may now replace such insurance within 120 days after July 20, 1955, whichever is later. As a result, Nov. 26, 1955, is the deadline date for eligible veterans to qualify for the benefit of this act.

In order to qualify, veterans concerned must file application, meet good health requirements and pay as Eisenhower and Nixon, is an able TV performer.

Some ways are suggesting that the 1956 campaign should be reported by the drama critics rather than political reporters. And it could be.

Previously, only those GI Term policies that expired while the policyholders were in active service after April 25, 1951, could be replaced within 120 days after expiration. No provision was made for the replacement of term policies that expired within the 120 day period after separation.

The new law adds the latter period for replacement. In addition, the new law grants another opportunity for replacement to those persons whose term policies expired while they were in active service after April 25, 1951, but who failed to apply for replacement within 120 days after separation. These persons now have until Nov. 26, 1955, in which to apply.

Land Shark From Honolulu Dock

HONOLULU (AP) — Marine Sgt. Richard C. Lawrence and Air Force Sgt. Charles Hoke, fishing from the Ft. Weaver dock, Wednesday landed a 15-foot shark weighing 1,800 pounds. The battle lasted three hours.

The sergeants said they used a two-foot hammerhead shark as bait.

Hollywood Commercials Bear Watching

By CHARLES MERCER
NEW YORK (AP) — Let's take a break for the commercial.

Coming in with many new shows as a new television season begins are many new commercials. One of the most startling innovations is the Hollywood commercial, the plug for a new motion picture.

In this neatest trick of the season a manufacturer of almost anything pay for a program containing a couple of movie stars and a few film clips. It often ends up by being such a plug for a certain movie that you can't remember who was the original sponsor.

Both networks and agencies are keeping a sharp eye on those movie commercials. Caught at the agency level and ruled off the air before it could appear, for example, was one 20-second spot advertising a new film. In it the male star of the picture is struggling with a girl in front of a tree and

The Doctor Says
If Tonsillectomy Is Needed
It's Best Not to Hesitate
By EDWIN P. JORDAN, M.D.

That Red 'Classless' Society
One of the great ironies of this age is pointed up sharply by even the cursory sort of look at Russia which the Communists allow visitors on their carefully guided tours.
From its beginnings in the revolution, the Communist fatherland has boasted many things in the name of humanity. Their prize catch phrases have been plentiful, but none more overworked than "the classless society."

HOLLYWOOD — (NEA) — Hollywood and Grapevine "It's a divorce" for television's George and Alice Gobel (Jeff Donnell) and I have a sneaking suspicion his click as a gay bachelor in his first movie "The Birds and the Bees," cued the surprising split.
A month ago a spokesman for George assured me Jeff would be back as Alice this season. Two weeks ago NBC even sent Jeff to Fresno, Calif. to take a personal appearance bow as "Alice Gobel."

breathers have enlarged adenoids. DEFINITELY diseased tonsils and adenoids should be removed surgically.
They are sometimes treated with x-ray, by coagulation with an electric needle, or by radium (in the case of the adenoids), but the majority of leading specialists feel that these methods are usually not as satisfactory as surgical removal.
Even though removal of the tonsils is an operation probably done more often than any other it is not something to dash into without good reason.
In many youngsters it has done a lot of good. Furthermore, even this operation is not entirely without risk, though the risk is slight, and there is no use doing it unless there is a good chance that it will improve the health.
When the operation is indicated it seems best to go ahead with it without too much hesitation.

This was to be the heaven of social perfection, where no invidious distinctions were made among men, where all would be treated and rated equally. It was contrasted with the "shameful" class divisions of capitalist society.
The irony lies in what has really happened under Soviet communism. Far from creating a classless world, the Reds have built one in which class levels are more rigidly maintained and nurtured than in any capitalist society that ever existed.
Russia has an elite class of top government and party leaders, military commanders, artists, writers and others which makes our upper social segments look like the underprivileged third of a nation.
These people can afford fancy country villas, big cars, privileged access to scarce commodities, vacation resorts, and in some instances have what amounts to "open" drawing accounts at the banks. The disparity between their living standards and those of ordinary Russians is staggering.
From this elite category, Russian society grades down through secondary levels of the party and government bureaucracy, until at last the clerks, the factory workers and the common laborers are reached. Varying degrees of privilege seem to attach to each level.
Lauren Soth, editor of the Des Moines Register and Tribune's editorial page, observed on the American farm delegation's tour of Russia that wherever the group went the Russians encountered were highly conscious of class and rank.

AN INDEPENDENT MOVIE about dope addiction, "One Way Ticket to Hell" will be released next month without the industry seal of approval Otto Preminger is seeking for a similar project, "Man With the Golden Arm."
Bam Price, ex-husband of Anne Francis, produced the film with a cast of unknowns after narcotic research at UCLA. "I didn't even try for an industry seal," Price told me, "because I knew it was hopeless. But the film has been passed by the National Board of Review."

ROME—I find in my memoirs a letter from John J. McCloy, chairman of the board of the Rockefeller's gigantic Chase Manhattan Bank, admitting that he alone chose Charles Poletti for the fateful job of military governor of Italy after the victory. McCloy moved into the bank on the heels of Winthrop Aldrich, brother of the late Mrs. John, Jr., when Eisenhower chose Aldrich to be his ambassador to London.
And you may remember, during the 1952 Republican convention in Chicago, Aldrich hired a secret hide-out of four rooms in the Hilton hotel for a whole week for the ostensible purpose of distributing about 20 tickets to New York contributors.
The Taft people bugged the premises, and put female detectives to work as chair-women at Eisenhower headquarters. Thus the contents of the wastebaskets each night went straight to a cozy little nook.
Tom Dewey was raising a sanchimonious howl, "Thou shalt not steal" with a mobile loud-speaker, insinuating that Taft was stealing Texas delegates. But the Taft people covering Aldrich's four-room hide-out reported that many of the visitors spoke with a Texas drawl. Still, they could have been Texas country boys who made good in the big city and just hadn't yet flushed the alkali out of their accents.
McCloy is a lawyer, a Republican of a sort, who threw in with the Pentagon during the war. He wrote in this letter dated July 3, 1943 that Arthur Knoch, of the New York Times, a very decent fellow notwithstanding, had expressed a suspicion that Henry L. Stimson, the secretary of war, placed Poletti Stimson was another nominal Republican but a stooge for Felix Frankfurter, who boasted to Harold Ickes that he put Stimson into the job. The selection of Poletti for a job which, at first was not specified seemed very rank in view of Poletti's endorsement by the American Labor Party, a real Communist front in New York. However, a lot of other Democrats were also endorsed by the ALP.

A nice, lazy summertime thought—having the job of enforcing the laws of nature.
Every investment in a government bond is just a little more butter on your bank roll.
It's funny how permanent waves stay so much longer in our roads than in women's hair.
It's always fair weather when picnics get together—and then comes the downpour.
An Illinois man broke a weak thief's nose—the moral of which is, keep yours out of other people's business.
The most efficient subtracting machine is an old auto.

Whether they were government officials, party leaders, farmers, professors, or what not, Soth reported, they always were careful to get into correct order in a procession, take the right banquet seat, or climb into the right car. One can just imagine the embarrassment and censure that would come to the poor nearsighted fellow who piled into the wrong vehicle.
Not all capitalist lands can boast honestly that they have shattered class barriers successfully. But most social experts are agreed that it is America, the prime symbol of capitalism, that offers the most fluid society of all.
Here many people on the lower rungs can enjoy at least some of the privileges accruing to those at or near the top. The distance between the top and bottom rungs is far shorter than in Communist Russia. More important still, there is no place on earth where a man may move more readily from the lower rungs to the higher, than in America.
Yes, in the United States, society is fluid. In the Soviet Union, it is congealed within hard class lines. And it's not just the weather.
A New Look at Old Age
As the American population ages steadily, it becomes more and more obvious that new attitudes toward our older citizens are needed. The standard, arbitrary 65-year-old retirement common to industry may well be outmoded.
Much evidence exists that many men have a lot of useful years beyond that artificial deadline. The manpower shortage of World War II drew many older men into the labor pool and disclosed sometimes amazing skills. The example of top world leaders like Churchill, Adenauer, De Gasperi and others—all men who lived or are living into and beyond the upper 70's—is impressive.
Scientists at the University of Chicago have begun a new study to figure out a more sensible way to measure age than mere birthdays. They figure there should be some way of crediting men for the degree of maturity they show, especially if their skills or talents are still sharp in later years.
On the other hand, some people wear out physically and emotionally at a much earlier time, and in fairness they ought to be retired accordingly.
This is a worth-while study. Its results deserve to be applied earnestly. If they are not, we may find ourselves wasting the great resources of our elderly citizens.

EAR WITNESS: Dorothy Shay learned about sailboating at Lake Tahoe from Vern Drew, the New York shipping executive.
Russell Nye's "One Touch of Venus" spectacular on TV landed him two more long video musicals.
There's also talk of a movie for Nye who was miscast by MGM in his first flicker after he scored on Broadway with Ethel Merman in "Call Me Madam."
Jeff Morrow, who's starring in "The Creature Walks Among Us," calls the picture the screen's first "walkie-talkie."

Anyway, they sent him to Europe and the "relatively subordinate job" proved to be that of satrap of the conqueror with regal powers. According to the Roosevelt-Truman policy, the Italian Communists were given advantages which have cost the American people billions and still jeopardize the victory won the hard way by doughboys are Poletti swaggared in with the mail-order rank of Lieut.-Colonel.
Poletti and his wife met as members of a study group in Florence, Italy, in 1931. They were fellow guests at the villa of Mabel Dodge Luhan, an unusual character even in an unconventional colony of arty Americans. They were married at Riverside Church in New York in 1934.
And guess who Poletti's best man was? He was Corliss Lamont.
McCloy was the American hieogalorum in Germany. As such he refused to explain why he remained on his staff Benjamin Buttenwieser, another New York lawyer who, with his wife harbored Alger Hiss after his conviction. Buttenwieser's wife also a lawyer, is a niece of Lehman.
There are a few facts of a fantastic situation so tangled that this recapitulation has made you turn to the funnies long ago.

Harry Truman's Memoirs

Reveal Molotov Rebuke

Says He Criticized Treaty Violation

NEW YORK — (Special) — Former President Harry S. Truman had been in office less than two weeks when he sharply criticized Russian violation of the Yalta agreements on Poland in a meeting with Soviet Foreign Minister Molotov, LIFE Magazine's publication of the first instalment of Mr. Truman's memoirs in its current issue disclosed today.

Mr. Truman's insistence that the U. S. expected the Soviet government to carry out its agreement on Poland—"and not on the basis of a one-way street"—was so vigorous that the meeting concluded with Molotov saying, "I have never been talked to like that in my life." Mr. Truman replied, "Carry out your agreements and you won't get talked to like that."

Publication of the memoirs marks the earliest appearance in history of a personal account of his years in office by a former President after returning to private life. To be published in five successive instalments in LIFE, Volume I of Mr. Truman's memoirs will be then published in book form by Doubleday & Co. in early November. Volume II is due to be serialized beginning in late January, and published in book form in February.

"Harry, the President Is Dead" Late on the afternoon of April 12, 1945, Mr. Truman was summoned to the White House and asked to come "as quickly and quietly" as he could. In a letter to his mother and sister that is included in the first instalment, he describes what followed:

"When I arrived at the Pennsylvania entrance to the most famous house in America, a couple of ushers met me . . . and then took me up to Mrs. Roosevelt's study on the second floor.

"She and Mrs. Boettiger, her daughter and her husband the Lt. Col., and Steve Early were there. Mrs. Roosevelt put her arm on my shoulder and said, 'Harry, the President is dead.'

"It was the only time in my life, I think, that I felt as if I'd had a real shock. I had hurried to the White House to see the President, and when I arrived, I found I was the President . . ."

Mr. Truman covers his initial 18 days in the White House in the first instalment. On April 13, 1945, his first full day in office, Mr. Truman says, the nation's military chiefs advised him that Germany would not be "finally overcome for another six months at least" and "Japan would not be conquered for another year and a half." A month later, in early May, Germany surrendered, and Japan collapsed in August 1945.

Mr. Truman had met with the Cabinet almost immediately after he had taken his oath of office. Secretary of War Stimson remained with Mr. Truman after the Cabinet meeting to inform him about an immense secret project that was then under way. "This," Mr. Truman says, "was the first bit of information that had come to me about the atomic bomb."

Harriman's Fear

The exchange with Molotov took place on April 23, 1945, just 11 days after Mr. Truman had taken the oath of office following the death of Franklin D. Roosevelt. A few days earlier, Mr. Truman says, Averell Harriman, then U. S. Ambassador to Moscow, took him aside and said:

"Frankly, one of the reasons that made me rush back to Washington, other than to attend the funeral of President Roosevelt, was the fear that you did not understand, as I had seen Roosevelt understand, that Stalin is breaking his agreements."

"My fear was inspired by the fact that you could not have had time to catch up with all the recent cables. But I must say that I am greatly relieved to discover that you have read them all."

High Regard for Taft

Mr. Truman, who classed himself as "a Jeffersonian Democrat living in modern times," says that he regarded the late Sen. Robert A. Taft (R., Ohio) as a "highly ethical, straightforward and honorable man. I held him in the highest respect. He was a man of his word, and whenever he told me that he was satisfied to go along with me, I always knew he would. From my point of view, of course, he was a violent partisan, and I disagreed with him strongly on what the role of government was in relation to the people. Nevertheless, he was an important member of the Senate who represented and spoke for his side vigorously and ably."

"He was the son of a Republican President and was shrewdly able to use this fact to advantage in exploiting the Republican viewpoint. He had a sense of dynasty. Like John Quincy Adams and Benjamin Harrison he wanted to keep the Presidency in the family."

Byrnes Appointment

Mr. Truman says that one of his first moves as President was to call James F. Byrnes to the White House to get his "first-hand account of what had gone on at Yalta."

During this meeting, Mr. Truman told Byrnes that he was "considering asking him to become Secretary of State after the San

Francisco conference." Mr. Truman says he wanted to name Byrnes because the existing law of succession placed Secretary of State Edward R. Stettinius next in line for the Presidency.

"It was my feeling," Mr. Truman says, "that any man who stepped into the Presidency should have held at least some office to which he had been elected by a vote of the people . . . Pending a change in the law (since enacted and making the Speaker of the House next in line after the Vice President), I felt it my duty to choose without too much delay a Secretary of State with proper qualifications to succeed, if necessary, to the Presidency. At this time I regarded Byrnes as the man best qualified."

Personal Consideration

There was another consideration behind the Byrnes appointment which was "mostly personal," Truman says. "Byrnes had felt that by virtue of his record of service to the party and the country he had been the logical choice to be the running mate with Franklin Roosevelt in the 1944 election. In fact, he had asked me to nominate him and give him my support before that convention. As it turned out, Roosevelt and the convention

willed otherwise, and Byrnes, undoubtedly, was deeply disappointed and hurt. I thought that my calling on him at this time might help to balance things up."

Byrnes was appointed Secretary of State, accompanied Mr. Truman to the Potsdam conference that summer and ultimately was succeeded by Gen. George C. Marshall. He later broke with the Truman administration over the civil rights issue and as governor of South Carolina in 1952 backed Dwight D. Eisenhower for President.

New Hurricane

Now in Sight

Janet Brewing Far Out Over Atlantic

MIAMI, Fla., P.—The season's 10th tropical storm named Janet, spun far out in the Atlantic today and Weather Bureau forecasters predicted it would grow in size and intensity.

The storm was about 250 miles east-southeast of Fort de France, Martinique, in the French West Indies at 5 a. m. EST. That put it roughly 1,700 miles southeast of Miami.

It was moving in a northwesterly direction at about 15 m.p.h. and was expected to continue at that pace throughout the morning, with a slow increase in intensity.

The storm's strongest winds ranged up to 70 miles an hour near the center, and gale winds spread outward 100 miles to the north and 50 to 75 miles to the south.

The Weather Bureau at San Juan, P. R., spotted Janet Wednesday night about 350 miles east-southeast of the French West In-

dies, but no reports had been received from the vicinity of the disturbance early today.

"Janet has a well-developed eye and it looks like we've got another hurricane on our hands," said Walter Davis, forecaster in the Miami Weather Bureau.

A Navy hurricane-hunting plane set out at dawn to track down the storm.

It was born just a week after Hurricane Ione blew up 320 miles east of Puerto Rico. Ione crashed ashore on the North Carolina coast, causing an estimated 100 million dollars damage and seven deaths.

Spared Northeast

Ione then veered northeastward, sparing the populous northeastern United States but hitting St. Johns, Nfld., with winds up to 82 miles an hour and causing flooded conditions there.

Hilda, formed Sept. 12 about 500 miles east-southeast of Miami,

trailed through Cuba, then spun across the Caribbean and hit Mexico, where the unofficial death toll exceeded 200.

Hilda and Ione were still on the weather map when Janet was born although thousands of miles separated the trio.

Inhalator Squad Loses a Client

LANSING, Mich. (U. P.)—No more will the Lansing fire department dispatcher sing out: "It's Harry again!"

No more will the inhalator squad race off to the residence of Harry D. Cove, 97-year-old businessman who suffered from heart trouble. The squad revived Cove 172 times over the years and claimed that he was the world's "most revived man."

He died Wednesday. The squad was not called the last time.

Insurance Group Dinner, Meeting Features Talks

The Insurance Women of Sterling, Dixon and Rock Falls held their September meeting at Jul's Danish Farm, Sterling, with a dinner.

Tables were gay with centerpieces of garden arrangements and 3-branch candles holding yellow tapers.

Miss Mary O'Rourke, Sterling, president, presided during the business meeting.

Two new members were welcomed into the group, Mary Ann McCormick and LaFay Meyer.

The October meeting will be in Dixon and will be "guest night." All arrangements will be in charge of Mrs. Fanchon Ferger assisted by Mary Rosecrans, Wilma Price, Doris Brucker, Ruth Marshall, LaFay Meyer and Leona Spencer. Reservations for Sterling will be in charge of Christine Bressler.

It was voted to hold the November meeting on the 22nd, rather than the usual date.

Mrs. Ann Bonadurer spoke on the "Training Program," the group would like to promote; the hours of study it would require, the good derived from it and rewards it offers. This is to be in conjunction with the Insurance Men's Association.

A communication from the Freeport association was read inviting the group to their annual picnic Oct. 6. Anyone wishing to attend may contact Miss Mary O'Rourke, Sterling.

G. W. Evert of the Western Adjustment and Inspection Company spoke on the new automobile policies now in force. This was followed by a question and answer period. Evert then spoke of a jewelry claim, telling the group how it was handled and how the case was finally settled.

Gordon Meers, special agent for the Security Insurance company was introduced and also referred to the jewelry claim, giving a little more information on the insurance angle in this case. He also spoke of how losses are adjusted, and the policies of the companies in regard to losses, so that they

Mrs. Ralph Wolf and Mrs. Clarence Nass were hostesses for the South Dixon unit of Home Bureau meeting Sept. 13, in Loveland Community House. Nineteen members answered roll call by modeling or describing their favorite house dress.

"Using Narcotics", was the health lesson which revealed dangers in using same.

Mrs. Lyle Shippert, chairman, presented the major lesson, "Dressing for the Occasion." Mrs. Leroy Glessner and Mrs. Earl Bothe modeled to show the proper color combination and use of accessories.

Mrs. Elmer Bowers and Mrs. Robert Link were guests of the unit. Mrs. Earl Bothe was welcomed as a new member.

Mrs. Fred Steder will entertain the unit Tuesday afternoon, Oct. 11. Mrs. Willard Kentner will be co-hostess.

High School PTA Meets Teachers, Enjoys Talks

A meeting of the Dixon high school PTA was held recently in the school auditorium with president, Lawrence Cappa presiding. President Cappa introduced members of the PTA board also the class mothers.

Mrs. Harold Rorer, member of the finance committee of the school survey, gave a talk on the educational tax referendum voted on Sept. 20.

Principal Sheldon Bross introduced the high school teachers. He called on Marvin Winger to discuss the new student handbook; coach Arthur Bowers to tell of the athletic activities for the boys and Mrs. Lucy Roe for a discussion of athletic activities for the girls. Robert L'Heureux and Fred Stephenson explained the band and chorus.

Refreshments were served by the class mothers during the social hour.

Club Women of 13th District to Attend Conference in Freeport

The Illinois Federation of Women's Clubs of the 13th district will hold the Northern Regional Conference in Freeport, Saturday, Oct. 1, from 10 a. m. to 3 p. m. CDT.

Mrs. W. W. Cramer, president of the 13th District, will be the hostess at the meeting in Embury Church, 515 South Galena Ave., Freeport (on Route 26). The regional program is designed to give all club women a briefing on the complete program of work for the year and to meet the State chairman and officers.

State president, Mrs. Don Williams, will bring her message and the State chairmen will give an outline of their work.

Reservations for the luncheon can be made through the Dixon club president before Sept. 26th.

Every Women's Club member is invited.

Shower Honors Len Howards

Mr. and Mrs. Len Howard, Dixon, recent newlyweds, were honored Sept. 15, with a miscellaneous shower at Loveland Community House. Mrs. Pat O'Brian, Miss Mabel Howard and Mrs. Howard Mighell, all of Dixon, were the hostesses. Nearly 65 relatives and friends were present. Mrs. Howard is the former Mary Bussler.

Refreshments were served and the honorees opened their many gifts during the evening.

Ronald Nolte, Bride Reside In Honolulu

Cadet Sheridan chapel, Schofield Barracks, Hawaii, formed the perfect setting for the recent marriage of Pvt. and Mrs. Ronald Nolte. Mrs. Nolte is the former Jeannine Boehm, daughter of Mr. and Mrs. Carl O. Boehm, Rock Falls. The bridegroom's parents are Mr. and Mrs. William F. Nolte, 524 North Ottawa Ave., Dixon. Chaplain Louis Alder performed the ceremony.

Candelabra, on each side of the altar and gladioli in pink and white were used in decorating the chapel.

Mrs. Helen Alder, wife of the chaplain, was the bride's only attendant. Thomas Durkin, Chicago, attended the bridegroom.

Bride's Gown

Crystallite ivory silk with an embossed flower design fashioned the bride's ballerina gown. The pleated bodice featured a wide frame collar coming to a V in the back. The attractive bride wore matching mitts, coming to points over the hands. A tiara of ivory nylon and tiny rosebuds held her veil and her cascade bouquet was of white carnations, lily of the valley and stephanotis. Her gift from the bridegroom was a matched pearl choker.

Mrs. Alder wore a blue linen street length frock.

A wedding dinner was held at Lau Yee Chai, well known Waikiki showplace.

Tour Island

Following a three weeks honeymoon during which they toured the island of Oahu, the newlyweds are residing at 2139 Kuhio Ave., in the Waikiki area of Honolulu.

A 1950 graduate of Rock Falls high school, the bride attended Northern Illinois State College, DeKalb, for two years. She was formerly employed as secretary at Wallace school, Sterling, Ill. Nolte, a graduate of Dixon high school and NISC, DeKalb, is now stationed at Schofield Barracks with the U.S. Army.

Out-of-town wedding guests included: Rev. and Mrs. Roy Davis and family, Wahiawa, and others from Des Moines, Ia.; Chicago, Ill.; Oklahoma City, Okla.; Jellico, Tenn.; Peoria, Ill.; Pennsylvania and Switzerland.

The Ma-Di-Na unit of Home Bureau will meet at 8 p. m. Monday, Sept. 26, in Loveland Community House.

The MATURE PARENT

Dozen Searching Why's for Parents to Ask Themselves

By MRS. MURIEL LAWRENCE

Why are we parents so anxious for children to love us?
Because it prepares them to love other people—Or
Because it secures us the driver's seat without any questions?

Why does a child's lie upset us so?
Because it tells us he's suffering from fear—Or
Because deceitfulness threatens our control of him?

Why do we adore good school marks?
Because they represent the child's joy in learning—Or
Because they stamp him with the seal "Approved"?

Why do we feel cheated when children show they want to leave us?
Because we enjoy having them around—Or
Because we've put up with them when we often didn't want to—and think that they should do the same for us?

Why do we sacrifice to give our daughter piano lessons?
Because she loves music—Or
Because we didn't get them and our younger sister did?

Why do we call her "baby" when boys come to call?
Because we always have—Or
Because it reminds her that she's too little for big ideas?

Why are we so angry when our son calls us "mean" with the car?
Because we are not mean with it—Or
Because he's a dependent who has stepped out of line?

Why are we telephoning Jimmy at camp again tonight?
Because we're thrilled by the fun he reports—Or
Because it will interrupt his joy in other people and make him notice us?

Why have we warned our daughter about too-ardent necking?
Because she has assets other than sexual charm to offer—Or
Because female sexual disobedience can bring disgrace?

Why are we so miserable that grown children don't need us?
Because we are useful people—Or
Because we've belittled ourselves so long that we can't see their independence as our crowning achievement?

Why do we want what's "best" for children?
Because "best" is the superlative of goodness—Or
Because we want our human opinion to be accepted as superlative?

Why do we admit some of these unworthy motives with alarm?
Because we share them with nearly everyone else—Or
Because we don't intend to do anything to improve them?

Picnic Honors Anniversary of Ashton Couple

Mr. and Mrs. Clarence Schafer, Ashton, were honored with a surprise picnic dinner Sunday noon in the home of Mr. and Mrs. Robert Thrasher, Jr., 217 East Eighth St., Dixon, honoring their 30th wedding anniversary. The Schafers are Mrs. Thrasher's parents. A highlight of dinner was the two tiered anniversary cake.

Those present included Mr. and Mrs. John Cordes, Mr. and Mrs. Jack Weishaar, Mrs. Elmer Kersten and daughter, Shirley, and Mr. and Mrs. Donald Cordes and family, all of Ashton; Mr. and Mrs. Ray Wolford, Franklin Grove; Mr. and Mrs. Ed Gehert and grandson, Dennis Gehert, Mr. and Mrs. Kenneth Beers and Pattie and Miss Margaret Gonnerman, all of Dixon; Mr. and Mrs. Harold Ackerman and family, Princeton.

The honorees received a purse of money and several other gifts.

Thieves Loot

Tool Boxes on

Road Equipment

Lee and Ogle county authorities
today are investigating the re-
ported theft of \$100-\$150 worth of
tools from locked tool boxes on
Ogle County Highway Department
equipment.
Deputy Sheriff Don Sachs, who
investigated the alleged theft
with Ogle County Deputy Sheriff
Ed Lang, reported that the tools
were taken sometime late Wednes-
day or early today from equip-
ment parked just north of the
Lee-Ogle county line near Ash-
ton.
Sachs said padlocks had been
broken off two caterpillar tractor
tool boxes and such things as
wrenches, hammers, cable cutters
and measuring tape were missing.

Sea Rescue

on Sande of Long Island, N. Y.,
a crew member of the tug, M.
Moran, enroute to New York, fell
overboard several miles from
shore and saw the vessel chug
right on northward and out of
sight.
A shrimp boat, heading into port,
picked him up.
Only two days before Sande was a
member of the crew of the tug had
gone to the aid of the S.S. Suma,
a big cargo ship which had lost a
propeller 250 miles off Jacksonville.

toward their goals and develop
friendly economic intercourse
among themselves.

"Let us strive together," he said,
"that the next decade shall be
known as the healing decade of
true peace."

On specific issues, Dulles said:
U. N. membership: It is a "grave
wrong" to keep nations out of the
world organization by use of the
veto. Action should be taken now
to admit all "peace loving" appli-
cants.

Wants Conference

Charter review: "The United
States believes that this session
should approve, in principle, the
convening of a charter review con-
ference, and establish a prepara-
tory commission to prepare and
submit recommendations relating
to the date, place, organization
and procedures of the general re-
view conference."

European security: The Paris
and London treaties on a retrained
sovereign Germany have created
"an effective system of limitation,
control and integration of armed
forces, the like of which the world
has never seen before . . . never
before have collective security and
individual self-restraint been so
resourcefully and so widely com-
bined."

Austria: "It should be noted that
the Austrian state treaty, bearing
the Soviet Union's signature, con-
templates support for Austria's ad-
mission to the United Nations."

Full of Possibilities

German reunification: "The present
opportunity is so unusual and
so full of constructive possibilities
that it can be hoped that the forth-
coming four-power foreign minis-
ters' meeting will find a solid
basis for the reunification of Ger-
many within a framework of Euro-
pean security."

Soviet satellites and international
communism: "If the spirit of Gen-
eva is genuine and not spurious,
if it is to be permanent and not
fleeting, it will lead to liquidating
abnormal extension of national
power, which crush the spirit of
national independence, and to the
ending of political offensives aimed
at subverting free governments."

Ready to Help

The Middle East: The United
States is ready to participate in
financial and security arrange-
ments aimed at liquidating the
Arab refugee problem and restor-
ing harmony between Israel and
the Arab nations.

Southeast Asia: The Southeast

area collective defense treaty will
"work powerfully to deter aggres-
sion."

China: "In the China area the

situation is somewhat less ominous
than it was. We hope that the 'Chi-
nese People's Republic' will re-
spond to the manifest will of the
world community that armed forces
should not be used to achieve
national objectives."

Cubs Purchase

Tariff Talks

Due in January

U. S. Prepared to Deal

On Any, All of 900 Items

WASHINGTON (AP)—American
tariff setters have offered to bar-
gain toward lower U.S. duties on
any or all of 900 types of foreign
goods in return for like concessions
on U.S. products sent abroad.

The State Department Wednes-
day listed the items—ranging from
automobiles to Scotch whisky—
which will be up for negotiation at
an international conference next
January.

The listed goods accounted for
\$1,772,000,000 worth, or about 17
per cent, of the total imports into
this country in 1954.

Details Secret

The department kept secret
what tariff slashes it will ask in
exchange at the January confer-
ence of 25 non-Communist nations
in Geneva. The meeting, fourth of
its kind since World War II, looms
as the most far-reaching in the
easing of world trade barriers
since the first conference in 1947.

The administration has the power
to lower U.S. tariffs rates in
effect on Jan. 1, 1955, as much as
15 per cent—5 per cent a year for
three years—under the Reciprocal
Trade Act extension passed by
Congress after a hot fight this
year.

State Department officials said
tariffs would not necessarily be
lowered on all the 900 items Ameri-

Godfrey Ignores

CAA Request for

'Buzzing' Info

CHICAGO (AP)—A Civil Aero-
nautics Administration investigator
said today that television star Ar-
thur Godfrey has failed to send his
request for an answer to charges
that Godfrey owned an airplane
in his private plane.

As a result, said Investigator
Harry Troxell, he will turn the
case over to the CAA's legal sec-
tion at Kansas City for "whatever
action it finds necessary."

Ozawa, 41, filed a complaint
with the CAA charging that God-
frey on Sept. 7 flew his DC-3 plane
within 100 feet of an Ozawa passen-
ger plane shortly after they took
off from Chicago's Midway Airport
and then circled in front of it.

Godfrey denied to newsmen he
flew too close to the plane. He said
he merely "waggled" his wings in
greeting and that there was no
danger of a collision.

He was grounded last year for
six months for buzzing flying too
close to the control tower at the
Teterboro, N. J., Airport.

Electronic

Bank 'Clerk'

Is Unveiled

MENLO PARK, Calif. (AP)—"Er-
ma," latest wonder of the electron-
ics age, was introduced to the
banking world yesterday by the
Stanford Research Institute and
the Bank of America.

"Erma"—electronic recording
machine accounting—made her de-
but at a news conference after
five years of research by SRI un-
der sponsorship of the world's larg-
est privately owned bank.

Here's what she does: Credits
individual accounts with deposits,
debits withdrawals, remembers de-
tails of all transactions, maintains
customer's correct balances, ac-
cepts stop-payments and hold or-
ders, sorts checks, prevents over-
drafts, automatically calculates the
service charge for each account
and at the month's end turns out a
complete printed statement for the
customer at the rate of 600 lines
per minute.

S. Clark Beise, president of the
Bank of America, said the auto-
matic high speed electronic book-
keeping machine is the "greatest
step in bank bookkeeping history."
Developments costs were not dis-
closed.

Father Pleads

For Return of

Abducted Baby

SA FRANCISCO (AP)—The father
of a tiny infant stolen from a hos-
pital crib pleaded again today for
his son's safe return. Fears in-
creased for the breast-fed baby's
life.

Dr. Sanford Marcus' plea fol-
lowed identification of the search
after the finding of clues in San
Jose.

Rewards totaling \$5,000 were of-
fered for the return of 6 1/2-pound
Robert Marcus, unharmed. Robert
is 6 days old, if alive.

The child's 29-year-old mother,
near collapse after the loss of her
baby only two days after birth, is
not responding to treatment, said
Dr. Marcus, 34.

Hundreds of police—more than a
third of San Francisco's 1,700-man
force—were assigned to the case.
They are searching for a buxom
blonde woman, 35 to 40 years old,
whom hospital attendants saw near
the nursery just before Robert was
snatched.

List Other Items

Besides autos and Scotch whisky
the most important items on the
negotiating list were tobacco, elec-
trical equipment, manganese, tung-
sten, aluminum, nickel, copper,
steel, olive oil, wines and ale.

Surprise! Tiny Sub, It Floats!

LOS ANGELES (U)—The cluster of spectators on the shipyard dock looked amazed when Edmund Martine's stubby little submarine hit the water — and actually floated.

Martine and his associate Fred Zendar weren't surprised but they conceded that Wednesday's first flotation tests surpassed expectations, although the sub's tail drooped slightly.

Both rode the conning tower as the queer 42-foot craft slid into the quiet waters of Los Angeles harbor. Lines led to shore-side stanchions, just in case, but the three-man boat, named the Cetacean, bobbed safely on the channel swell.

Lauren Bacall Gives Do's, Don'ts for Happy Marriage

By HAL BOYLE

NEW YORK (U)—Yes, but—"Good morning. How do you feel?"

"What do you think I ought to do about fixing up the living room?"

"Don't you think you've spread enough joy for one evening?"

"You're wrong!"

These are five remarks Lauren Bacall says a wise wife should never make to her husband.

When the young, tawny blonde actress married Humphrey Bogart, nearly 25 years her senior, Hollywood cynics bet on whether the match would last 10 months—or ten days.

Having Fun

Ten years and two children later, however, Lauren and Bogie are having more fun together than two merry fleas on a shaggy dog. Somewhat to her own amazement, Miss Bacall is now regarded as an authority on matrimony.

Much has been written on how she tamed "the bad boy" of the movies, and she herself says that's utter nonsense.

"It's foolish to try to change the man you're married to," she said, during a breakfast-luncheon at the "21" Restaurant. "That won't make him better—but it will make him worse."

"Let him run wild. He'll always come home then."

She glanced cheerfully over at Bogart, who was standing at the bar talking baseball with the bartender and some other close friends. She and her husband had come to town the night before for a fling to celebrate completion of her latest film, "Blood Alley," co-starring John Wayne.

"If a man has been drinking a little bit, it doesn't pay to disagree with him. It only means you'll both be up all night, and you'll end up with circles under your eyes."

Bogart came over, said, "Hi-ya doin', Sam?" to Miss Bacall, and wandered back to the bar, bourbon and baseball.

Very Patient

"To think I've given that guy one third of my active life," said Lauren, grinning. "But I'm tougher to live with than he is. I'm more selfish. He's very patient with me."

"If I'd married a younger man, he wouldn't have put up with me. I'd have probably killed him—or we'd have killed each other."

Miss Bacall said she knew of

His Dream

Martine, who has designed diving bells, built the Cetacean with his own funds as an experiment. He says it's his dream of a self-powered, deep water diving machine. He hopes to use it in exploring and photographing under-sea life and geography.

Its cost thus far has not been disclosed.

The Cetacean weighs 53 tons and carries inside its steel shell a dual set of diesel-electric motors which Martine expects will give the craft a speed of 10 knots on the surface and seven submerged. The Cetacean, shaped something like a cocoon, has on its bottom twin "feet" for ocean floor pedestals.

Glass Ports

The nose, sides and bottomside of the hull are fitted with optically ground glass ports through which cameras are trained. Twelve lights, each of 600 watts output, will send piercing beams through the water for photographic purposes, Martine says.

Tests will continue this week, and Martine hopes to put to sea in the Cetacean within two weeks for deep sea tests.

Loses Suit, Pays Off With 8,819 Pennies

DOWNNEY, Calif. (U)—When Raymond P. Vinzant lost a Small Claims Court judgment of \$88.19 to Anthony J. Rivera he tried to pay off in pennies, but Rivera refused, claiming the coppers aren't legal tender.

Vinzant dumped the 8,819 pennies from a bucket onto a sidewalk, saying: "Here's your money." A crowd gathered as the men disputed the question of legal tender and sidewalk lawyers popped up all around with free advice.

Municipal Judge A. Daniel Boone was consulted and he expressed the opinion Vinzant had not paid in legal tender, so sheriff's deputies ordered Vinzant to clear the sidewalk. He had to scoop up his coppers and put them back in his bucket.

Vinzant, however, would find scant support in United States code annotated, title 31, money and finance, 1954 edition. It reads: Chapter 9, Section 460: "The minor coins of the United States shall be a legal tender, at their nominal value for any amount not exceeding 25 cents in any one payment."

By minor coins, the code says it means pennies and nickels. Chapter 9, Section 459, specifies that all silver coins of denomina-

Employees Become Ill After Eating at Monmouth Plant

MONMOUTH, Ill. (U)—Between 40 to 50 employees of the Formit Co. became ill Tuesday after eating in the company operated cafeteria. Twenty-four were hospitalized.

Doctors diagnosed the illness as food poisoning. Tom Moore, manager of the plant, which employs 315 workers, mainly women, said most of those made ill reported they had eaten creamed chicken at the noon meal.

Moore said an investigation is being made in an effort to fix the source of the poisoning.

Most of those hospitalized are expected to be released from Monmouth Hospital today.

The company manufactures women's foundation garments.

Expensive Fish

ELIZABETHTOWN, Ky. (U)—Dr. M. J. Noel found a new way to catch fish but it was expensive.

He parked his 1955 model car near a river and the machine rolled down a steep shore into the water. When a wrecker retrieved the car, two fish were found inside.

County Convention Set for Election of ASC Committee

AMBOY—(Special)—The county convention, which is held for the purpose of electing the 1956 County Agricultural Stabilization and Conservation Committee, will be held in the Farm Bureau Auditorium here Tuesday at 10 a.m. CDT.

While this meeting is open to the public only those delegates elected by the farmers of each township will be eligible to vote. An election for community committeemen was held by mail. A

ballot was mailed out to each farmer in each township. That ballot contained the names of ten farmers living in that township. Each farmer was to vote for five of the ten named on the ballot. The one receiving the most votes was declared elected chairman. That person will also be the delegate from that township in electing the county committee.

The person receiving the second largest number of votes is vice chairman and alternate delegate, the person receiving the third largest number of votes is the third regular member of the committee. The persons receiving the fourth and fifth largest number of votes are the first and second alternates.

In the county convention each candidate for the County Committee will be elected separately by the 24 delegates, one representing each township.

Driver Training Course to Be Held in Mt. Morris High

MT. MORRIS—(Special)—The Mt. Morris High School received its driver training car from the Lacey Motor Sales, Oregon, Tuesday.

The driver training course is carried out in the high school according to the standards set up by the AAA and the National Education Association. Each student is given eight hours of actual driving behind the wheel, 16 hours of observation and 36 hours of classroom work.

The course is taught in the sophomore year. The school this year is having the students who are nearest to their 16th birthday take the course during the first semester and the other students during the second semester. There are 22 sophomores taking the course the first semester. The balance of the sophomores will take the course the second semester.

The course is taught by Ben Clark, who took the driver training course at the University of Illinois this summer. The school is interested in giving the course to all students so they will be conscious of all of the safety regulations and of the best practices in driving at the time they receive their license.

The students under 16 will be given a restricted instructional permit which makes it legal for them to drive the car only when the driver training instructor is in the front seat with the student. The restricted permit does not grant the student the privilege of driving a car under any other conditions or under the supervision of anyone else. If the student drives the car with anyone else than the driver training instructor preceding his 16th birthday, he will be driving a car illegally, and the owner of the car will be responsible in case of accident.

The Lacey Company furnishes a new car and the Chicago Motor Club stands the expense of installing the dual controls and the lettering on the car. At the end of the school year, the board of education turns the car back to the motor company. The school must carry the insurance and maintain the car during the year.

The board of education feels that the driver training course will give to the students the correct training habits for driving a car which will tend to reduce the accidents on the highways. It is the hope of the

Vicki Ends Vacation in The Woods

CHARLOTTE, N. C. (AP)—Vicki the elephant guzzled tap water and chomped domesticated hay today, having put behind her 11 days of free-lance foraging in the woodlands of Mecklenburg County.

The 6-year-old Indian elephant, who went rambling Sept. 11 from her amusement park home about six miles from downtown Charlotte, was run down Wednesday by a volunteer posse.

Her pursuers herded her into an open field and let her exhaust herself with aimless running about. Then they circled her methodically with strands of rope, and when the web was completed snared her feet and got an elephant hook in her ear.

Vicki, once again tractable, returned at a leisurely pace with her captors to the amusement park.

Chief Joe Whitley of the Mecklenburg County police was in charge of the beaters, who included off-duty police and volunteer firemen.

Elephant man Louie Reed of the Ringling Brothers and Barnum and Bailey Circus wasn't in on the finish. He tired out. But the elephant's owner, Jack Partlow, and her regular trainer, John (Smoky) Strickland, were there to soothe the frightened Vicki and lead her home.

Navy Proud Of Arctic Deliveries

WASHINGTON (AP)—The Navy points with pride to a "great victory" over arctic barriers in taking supplies to the nation's northernmost radar outposts.

Vice Adm. F. C. Denebrink, commander of the Military Sea Transport Service, said Wednesday this summer's shipments to build the distant early warning (DEW) radar defense line marked the first use of the historic Northwest passage to move men and supplies.

Denebrink said not a life was lost among the 18,647 people aboard 126 ships in the three-month operation. He said quite a few ships did suffer damage and ran aground, but repairs were so efficient that all but two vessels were heading homeward under their own power after rounding Point Barrow, Alaska, this week.

The admiral said 548,500 measurements of general supplies and 3,686,000 barrels of petroleum products were unloaded along the 1,500-mile stretch of the Greenland-Alaska DEW line the Navy concentrated on this summer, and at other northern posts. A measurement ton, one way of figuring the volume of cargo, is usually reckoned at 40 cubic feet.

The term "white coal" is a figurative expression used for water power.

Disease Threatens Flood Zone

MEXICO CITY (AP)—A disease epidemic menaced flood-stricken Tampico today. The outbreak came as the Gulf port battled the ravages of the rampaging Panuco River in the wake of Hurricane Hilda.

The unofficial death toll in northeast Mexico stood at 205, with more expected as the floods continued and isolated sections reported. About 400 were listed as missing and 1,000 injured.

Dysentery, which generally stalks the victims of a major flood, broke out among Tampico's 30,000 homeless almost a third of the 110,000 population. Two children died from the disease at a concentration center, and 100 more were reported critically ill.

Doctors asked the capital for emergency aid. Medicine was being flown in along with food and clothing.

The airlift still constituted the only means of supplying the flood-isolated city. President Adolfo Ruiz Cortines flew to the coast for a personal inspection.

The Navy Ministry put property damage at a billion and a half pesos (120 million dollars).

Founder of Kress Stores Dead at 92

NEW YORK (AP)—Samuel H. Kress, 92, founder and chairman of the board of S. H. Kress Co., nationwide five-and-dime chain store, died today at his home at 1020 Fifth Ave.

Kress first entered the retail mercantile business in Nanticoke, Pa., after a period of school teaching. Later he went into the wholesale stationery business in Wilkes-Barre, Pa.

From this beginning emerged the Kress chain, which included more than 250 stores at the time of his death.

Kress was president of the Samuel H. Kress Foundation, a trustee of the Metropolitan Museum of Art, of the National Gallery of Art and of the Georgia Warm Springs Foundation.

He was a bachelor. His brother, Rush, vice chairman of the store chain, survives.

Develop 'Solder' For Color TV Tubes

TOLEDO, Ohio (AP)—The Owens-Illinois Glass Co. says it has developed a new glass "solder" technique which will cut the cost of manufacturing color television sets.

The "solder" seals in a metallic sieve which serves to distribute electrons on the red, yellow and blue phosphorus on the surface of the tube.

The material brings together the base and funnel of the tube, with the edges of the sieve held between them. The "solder," which has a low melting point, makes it possible to dismantle the parts of the tube if a flaw is found.

The new technique was described Wednesday at a news conference, which was a forerunner to the formal dedication Tuesday of a technical center of Owens-Illinois. The center was built and equipped at a cost of five million dollars and has 200,000 square feet of floor space.

Democrats to Hit at GOP Budget Record

WASHINGTON (AP)—Campaigning Democrats will stress a contention that the Eisenhower administration "did not come close to matching the Democratic record for sound budgetary performance."

Democratic National Chairman Paul M. Butler made the statement Wednesday in sending to party workers a "fact sheet" reporting an estimated three-year deficit of \$9,300,000,000 under the Republicans compared with a surplus of \$4,300,000,000 during four peacetime years of the Truman administration.

He urged Democrats to "hammer home the truth" that the Truman administration balanced the budget and produced a surplus in two of the four years 1947-1950.

No Thoroughfare!

NEW HAVEN, Conn. (AP)—Daniel McCarthy, 21, drove his car through a plate glass display window into a vacant store, turned right and started to drive out through another window, police said.

They booked McCarthy, whose machine stalled halfway through the second window, on a charge of operating while under the influence of liquor or drugs.

Farm Prop Losses Total \$799 Million

WASHINGTON (AP)—The Agriculture Department reported today that its losses in carrying out farm price support programs reached a record high of \$799,061,464 during the fiscal year ending last June 30.

This figure compared with \$419,477,074 for the previous fiscal year, which was the highest up to that time.

The losses were incurred principally from giving away, or selling for less than cost, farm products acquired under price support purchases. There were losses also on loan liquidation operations of the support programs.

Atom Power

DETROIT (AP)—Detroit Edison Co., which now is pioneering a 45 million dollar nuclear power plant, says it will build a second and third plants within the next decade.

"And we should be able to produce power at a profit with the second installation," says Robert W. Hartwell, director of the company's nuclear power development.

Edison's first power plant, which it is building with a group of associate utilities, will be in operation by 1960. Hartwell says the cost of operating the first reactor will be about \$450 a kilowatt hour compared to \$80 to \$90 for conventional fuels. "We'll chalk that one up to research and development," he added.

Sweet Revenge

ST. LOUIS (AP)—Police thought there seemed to be an unusual number of tipsters in the case of seven illegally parked trucks.

The mystery didn't last long. The trucks were part of a private fleet hired by the city to tow illegally parked autos off city streets. A ticket was placed on each one.

Forrestal Test Today

ABOARD CARRIER FOR-
RESTAL (P) This is the crucial
testing day for Uncle Sam's new-
est and mightiest warship as the
Navy prepared to open up the
supercarrier Forrestal to full
speed.

If she passes the test; the
"okay" label is expected to be
given the 58,000-ton vessel, which
failed her first sea trials last
month because of mechanical
trouble.

If all goes well, the Forrestal
will be delivered to the Navy Sept.
29 and commissioned Oct. 1.

Do Parents Confuse Youngster?

ANN ARBOR, Mich. (P)—Young
people are not crazy mixed-up kids
—but the world they live in is.

So says a University of Michigan
child psychiatrist.

Dr. Ralph D. Rabinovitch, chief
of the children's service, Neuro-
psychiatric Institute at the univer-
sity, explains:

"With all his problems, the ad-
olescent has priceless assets which,
given proper nurture, far out-
weigh the negatives—but some
things continually get in his way."

In an article in the English-
Journal, printed by the University
of Chicago Press Dr. Rabinovitch
takes aim at some current child
psychology axioms which he thinks
have gone astray.

In trying to give their child in-
dependence many parents, Dr.
Rabinovitch believes, go too far,
depriving them of needed family
security and guidance.

As a result, he says, they are
forced to stand on legs too wobbly
to hold them.

"In some families," he writes,
"it is thought parents no longer
dare direct a child after he has
reached the magic age of 16 . . .
It is certainly nice to grow up
with one's children, but it is also
wise to be more mature than one's
children."

"Comic books are the evils of
the times." But, he says, this
theme is overdone. Dr. Rabinovitch
feels that the horrors of
everyday life are more gruesome
than most comic books.

He believes that adolescents
need more than a school course in
the anatomy and physiology of
sexual functions. He says:

"The primary elements of sex
education are found in family re-
lationships in feeling tones be-
tween parents and in feeling tones
between parent and child."

There is too much of an effort
now, Rabinovitch says, to keep
sentiment out of young lives, to
give adolescents a sort of tough-
ness.

Dead Skipper Blamed for Ferry Disaster

HAKOKATE, Japan (P)—A ma-
rine court of inquiry today
blamed the dead skipper for the 1954 ty-
phoon sinking of the huge
mail railways ferry Toka Maru.

A total of 1,172 persons—56 of
them Americans—drowned. It was
the worst sea disaster since the
Titanic sank in 1912 with 1,517
dead.

After seven months of hearings,
the Hakodate local marine acci-
dents inquiry agency, a govern-
ment body, blamed Capt. Heichi
Kondo for putting to sea in a ty-
phoon.

Tidbits Give Big Flavor

By CECILY BROWNSTONE Associated Press Food Editor

ANCHOVIES, flat or rolled, can give so much interest to menus. Even Webster says that the anchovy, a member of a small herring-like fish family, is "esteemed for its rich and peculiar flavor." If you haven't given these savory little tidbits their due, and are in an adventurous culinary mood, you might like to follow some of these suggestions.

NEW PEAR SALAD

Ripe succulent Bartlett pears are served with mixed greens, anchovies and French dressing for a new salad. When we prepared this recently, we got the greens ready—torn into bite-size pieces—ahead of time, put them in our large wooden bowl, covered the bowl tightly with transparent plastic wrapping, and refrigerated it. At serving time, we cut flat anchovies into small pieces, added them to the greens and tossed the whole thing with French dressing. For the dressing we used four tablespoons of olive oil, one tablespoon of white wine vinegar, a half teaspoon of prepared Bahama mustard and salt and pepper. We spooned the dressed greens and anchovies into individual wooden bowls and topped them with peeled and sectioned Bartlett pears, which we had dipped in lemon juice to help them stay white. The salad tasted delightful after a main course of spit-roasted chicken.

If you like you may prepare this salad without adding the minced anchovies to the greens. In this case, mix the greens and French dressing, then top each portion with the pears and a few whole rolled caper-stuffed anchovies.

PARTY SPREAD

Another excellent spread is made by creaming equal parts of

BARTLETT PEAR SALAD—Delicious with anchovies.

Roquefort cheese and cream cheese together and adding minced anchovies and Worcestershire sauce.

ITALIAN-STYLE BEANS

As an appetizer, we are partial to cooked dried white beans or chick peas marinated with vinegar, olive oil and a clove of garlic. (The chick peas come in cans and are an excellent product.) Just before serving the beans we add salt and freshly-ground pepper to taste and top them with lots of minced parsley and flat anchovies. If you want to serve these beans on an appetizer tray, we suggest accompanying them with sliced ripe tomatoes, black olives, canned pimiento and romaine.

LUNCH SALADS

For a luncheon salad cut flat anchovies into small pieces and mix with cream-style cottage cheese and chopped green olives. Serve on lettuce with French dressing.

Stuffed eggs with anchovies are elegant. Hard-cook the eggs, cut in half lengthwise and remove the yolks. Mash the hot yolks with a little soft butter, dry mustard, lemon juice, minced anchovies and salt and pepper. Refill the whites; ruffle the filling with the tines of a fork and sprinkle with paprika. Top each stuffed egg with a rolled anchovy. Serve with salad greens for lunch.

SPAGHETTI SAUCE

Add minced flat anchovies to a lightly-seasoned sauce made from fresh tomatoes; serve over spaghetti. Or add the anchovies to a butter-and-garlic sauce for spaghetti.

VEAL PLUS

Anchovies add a filipp to veal. Have boneless tender veal cut and pounded into paper-thin slices; dip in flour then in egg beaten with a tablespoon or so of water and finally in fine dry bread crumbs. Fry golden-brown in butter. Serve the veal topped with anchovies.

Marion Marlowe Returns to Hollywood as a Headliner

By BOB THOMAS

HOLLYWOOD (P)—Tall, shapely Marion Marlowe of St. Louis has returned to Hollywood under different circumstances from her last visit.

Today she is headlining at a big new night spot, has signed for a leading role in a movie and is negotiating for more. When she was last here, she was a callgirl at a drive-in restaurant.

Moral: It pays to get fired. As any TV fan can tell you, Marion was one of the so-called Arthur Godfrey Friends. She got the ax.

A Blessing

It turned out to be a disguised blessing. The somnino was immediately signed for several appearances on the Ed Sullivan Show. She will be featured prominently in "The Ed Sullivan Story," which Warners is going to film.

She also was hooked up to high-salaried dates at such spots as the Chez Paree in Chicago, Dunes in Las Vegas and the new Beverly Hills.

Hilton here. She was lunching on the balcony of her swank seventh-floor suite at the Hilton as she reminisced about her previous assault on Hollywood.

"It was back in 1947 or so," she remarked. "I had just graduated from high school in St. Louis. I heard Monogram was making a picture based on the life of Tchaikovsky. They were looking for a girl who was tall, brunette and could sing. I qualified for all three. A friend of mine sent my picture. The studio wrote back for me to come to Hollywood—at my own expense of course."

Just Sat Around

"So I came out. I sat around for five months doing nothing. They finally cast the part with a short blonde and named in the press. It figures."

But Marion didn't bottom in her first picture. She stayed in Hollywood, living at the Studio City and making lamingtons at a drive-in. She was at the chance to go to London in a show called "Sadie Thelma."

Marion came back to this country, but a big scandal then the late Ed Godfrey. However, she is moving her headquarters back to Hollywood and is presently at the chance to go to London in a show called "Sadie Thelma."

Corn Bread, Ham Blend

By CECILY BROWNSTONE
Associated Press Food Editor

CASSEROLE CORN BREAD: good companion for baked ham when you are giving a buffet supper. Add a big salad—of cooked or raw vegetables, or a combination of the two—and watermelon pickle and you can be sure your guests will fare well. The corn bread is firmer than traditional Southern spoon bread, but it should be served with a big spoon rather than cut with a knife. Be sure to have lots of pats of good butter (lightly salted or sweet) to go with it.

This Casserole Corn Bread is a recipe we had noted many times but had not tried until recently; the cheese variation makes it doubly useful. One word of reassurance to remember when you try it: don't worry if the stiffly beaten egg white doesn't combine perfectly with the thin batter. The little blobs of white will be taken care of in the baking.

CASSEROLE CORN BREAD
Ingredients: 2 cups enriched yellow corn meal, 1 teaspoon salt, 2 cups boiling water, 1/4 cup butter or margarine (soft), 1 1/2 cups milk, 2 eggs (separated).

Method: Stir corn meal and salt together in mixing bowl. Add boiling water and mix until smooth and free from lumps; stir in the butter until combined. Add milk; beat with spoon until smooth. Beat egg yolks until they begin to get thick; stir into corn meal mixture.

OTHER CASSEROLE CORN BREAD SERVICE
Baked ham is not the only accompaniment for Casserole Corn

CASSEROLE CORN BREAD—Plain or cheese flavored.

With clean beater, beat egg whites until stiff; fold into corn meal mixture. Pour into greased 2-quart baking dish. Bake in moderate (375-degrees) oven about 1 hour or until puffed and browned. Serve at once.

Variation: Stir in 1 cup grated cheddar cheese and 2 tablespoons finely diced pimiento with the beaten egg yolks. Makes 6 to 8 servings.

Bread. Here are other suggestions:

For Lunch — When there's a ladies' party at noon, serve Casserole Corn Bread with creamed chicken and green peas. Add cranberry sauce so its garnet color will make the plates look pretty. The bread is good, too, with fried chicken and gravy.

For Supper — Like baby turkey oven-fried? The Casserole Corn Bread will taste good with it. Add a big salad of greens with a tangy French dressing. Have the greens assorted, choosing among escarole, chicory, romaine, lettuce, water cress, and adding shredded green cabbage. Men who won't eat a salad of plain lettuce or romaine seem to take to this potpourri!

SOUTHERN DESSERT

Serve that old-fashioned Southern dessert, Ambrosia, this new way. To the usual combination of sliced oranges and bananas sprinkled with shredded coconut, add scoops of sherbet. The sherbet can be orange, lemon or lime flavor.

JIGTIME SWEET

Spread a store-bought layer of sponge cake with a couple of jars of baby-food fruit dessert. Top with another layer of the cake and sweetened whipped cream.

Propose Shift of IAA Headquarters To State Capital

CHICAGO (P)—A proposal to shift the Illinois Agricultural Assn. headquarters from Chicago to the IAA's annual meeting in November.

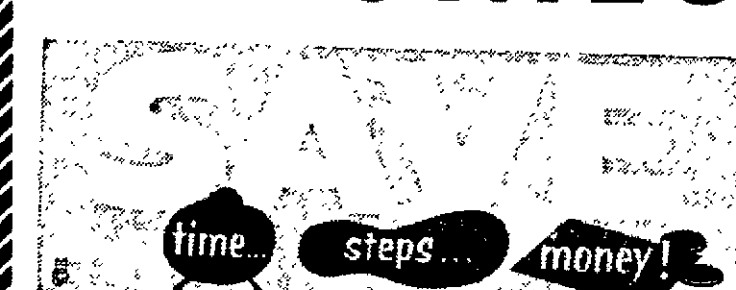

This was announced by an IAA spokesman after the organization's president, Otto Steffy of Stronghurst, met Wednesday with presidents of 15 affiliated groups to discuss the matter.

The spokesman said several central Illinois county farm bureaus are working for a shift in the headquarters site but that most counties in northern and southern Illinois oppose a move.

The IAA, representing more than 200,000 farm families, has been headquartered in Chicago for 35 years. Its November convention will be in Chicago.

Cake With Fancy Fixings

By CECILY BROWNSTONE
Associated Press Food Editor
This two-egg cake is made the quick-beat way; a basic recipe, it gains glamor from its fixings. If Concord grapes are available, you can use them to make the cake filling; if not, use a good grape jam. Frost the cake with cinnamon whipped cream and give it a gorgeous garnish made from halved red or blue grapes and fresh mint leaves.

GRAPE CAKE
Ingredients: 2½ cups sifted cake flour, 3 teaspoons double-acting baking powder, 1 teaspoon salt, 1½ cups sugar, ½ cup emulsifier-type vegetable shortening, 2 teaspoons grated lemon rind, 1 cup milk, 2 eggs, Concord Grape Filling or grape jam, Cinnamon Whipped Cream, extra red or blue grapes, fresh mint leaves.

Method: Line bottom of square pan (9 by 9 by 2 inches) with paper. Put flour, baking powder, salt and sugar into sifter. Put shortening and lemon rind in large mixing bowl; stir together to soften shortening. Sift in dry ingredients. Add ¾ cup of the milk and mix until all flour is dampened. Beat 2 minutes at low speed of electric mixer or 300 vigorous strokes by hand. Add eggs and remaining ¾ cup milk; beat 1 minute longer at low speed of mixer or 150 vigorous strokes by hand. Turn into prepared pan. Bake in moderate (350 degrees) oven 45 to 50 minutes. Turn out on rack to cool. Split cake in half horizontally, forming two layers. Spread Concord Grape Filling or grape jam between layers. Spread top and sides of cake with Cinnamon Whipped Cream. Decorate with "bunches of grapes" made from halved seeded grapes and mint leaves. Chill until ready to serve.

CONCORD GRAPE FILLING
Sift 2 tablespoons cake flour, ½ cup sugar and a dash of salt together in a small saucepan. Add ¾ cup water and 1 cup Concord grapes; bring to boil, stirring occasionally. Boil 2 minutes. Strain through a sieve. Cool before spreading on cake.

CINNAMON WHIPPED CREAM
Add 2 tablespoons confectioners' sugar and 1 teaspoon cinnamon to 1½ cups heavy cream; whip until stiff.

Installment Debt Worry Blamed for Knife Deaths

CHICAGO (AP)—They died trying to buy a life of luxury in the United States on the "easy-payment" installment plan.

That was the theory offered by investigators Wednesday for the deaths of Brammair Spasic, 48, and his wife, Olga, 47, recent immigrants from Europe.

They killed each other Saturday in a vicious butcher knife duel in their near Northwest Side flat.

Investigators found a story of soaring debt, based on "low down payments and a few cents a day" in the contents of a cheap enameled strongbox in their flat.

Quarrel Over Debts

A niece, Ursula Kister, 16, said they had been quarreling over their debts.

"It's not hard to believe," said Robert J. Massett, chief investigator for the public administrator George Parker, investigator for the coroner's office, put together this story of the deaths.

Spasic, a Czech, came to Chicago in 1950 and got a job as a sheet metal worker with take-home pay of \$109 a week.

His wife, a German, came to Chicago in 1952. She had a sewing machine and a few personal belongings.

They married in 1953 and she took a factory job at \$35 a week. Soon they moved into their \$95-a-month, three-bedroom flat and began to furnish it.

They bought a stove and icebox on Feb. 2, 1954—payments \$40 a month.

Bought TV

On June 1, 1954, they bought a television set and other furniture—payments \$37 26 a month.

Last December they bought a 1954 automobile for \$1,990, paying \$500 cash and payments running \$78 54 a month for two years.

There were scores of other purchases. They bought two small radios for cash. America has hot summers, so they bought two fans. They helped Mrs. Spasic's nephew and niece to come to America.

They each took out a \$2,000 life insurance policy, with monthly premiums due. Spasic signed up for a small pavilion deduction for U. S. savings bonds.

But the pinch was too much. They borrowed \$350 from a loan company last March 28. On April 26 they borrowed \$300 more. There was a third loan for \$300 later.

Ursula, who lived with them, said they argued over their debts every few days and that her aunt took another job recently and worked day and night.

\$616 Monthly Income

The records showed the Spasics had a monthly income of \$616. Their payments, including rent and insurance, came to \$339 27.

In the strongbox investigators found an envelope used to mail a U. S. savings bond. It was empty, except for a time payment receipt. In the mailbox were three notices of payments overdue.

"Have you forgotten your payments?" asked one note.

Switched Decision

JACKSONVILLE (AP)—Reorganization of the bankrupt Florida East Coast Railway, bounced around by federal courts and the Interstate Commerce Commission since 1931, took one of its strangest twists when Miami asked the federal court for permission to sue the railroad in state court. Miami wanted to file a condemnation suit to open four grade crossings across the railroad tracks.

It was necessary for the city to get federal court permission because a judge now dead issued an order years ago saying the FEC couldn't be sued during the reorganization proceedings.

Gov. Stratton Urges Women to Seek Legislature

CHICAGO (AP)—A plug for more women legislators has been sounded by Gov. Stratton.

In a speech before about 1,200 Cook County Republican women Wednesday, Stratton said:

"You women and the party organization should make every effort to see that one-third of those (legislators) elected in the new (suburban Cook County) districts are women and homemakers."

New legislative districts set up by the 1955 General Assembly give Cook County suburbs 21 representatives instead of the old 3 and 6 Senate seats instead of 1.

There now are five women in the House, two of them from Cook County, and two women senators, both from downstate.

Public Record

UNION, S. C. (AP)—Sixty years in public office has ended for the Betenbaugh family. Mrs. Tillie Betenbaugh has left the county auditor's office previously held by her husband and father-in-law, who had been public cotton weigher, chairman of the board of county supervisors and township commissioner before becoming auditor in 1900.

OTTAWA, Ill. (P) — School days and retirement days will become one when Miss Florence Brown, who has taught school for about 25 years, lives in a rural school building when she retires. She purchased one for \$2,300 and plans to remodel it into a home.

WEST UNION, Ohio (P) — When an industrial giant steps into a rural area, it may do some of the garb of the farmer. Since starting its 5,000-acre jet engine testing center in Adams county, General Electric has become conservationist, forester and tobacco farmer.

Company officials decided to bring the land back to its best as an example of what might be achieved under sound conservation and reforestation.

Fire lanes have been cut on existing timber areas. Other areas will be planted to trees.

Savory Pot Roast Recipe

By CECILY BROWNSTONE
Associated Press, Food Editor

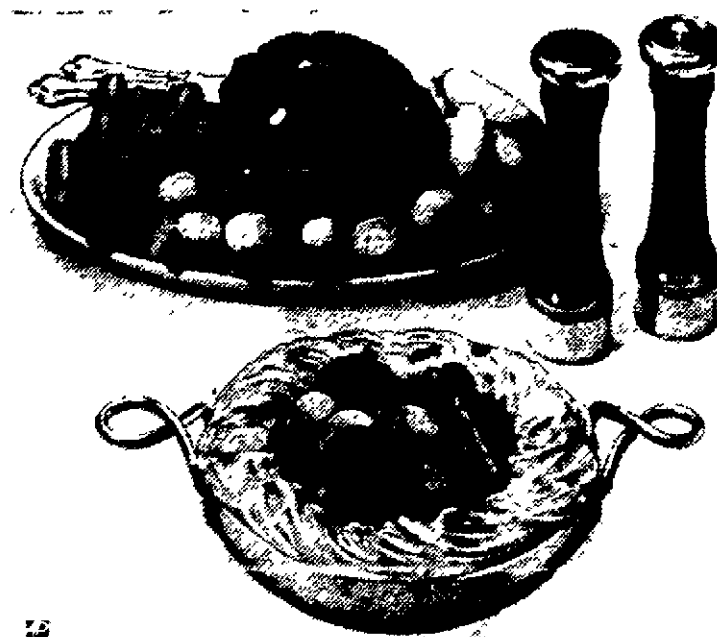

How's your basic recipe file? You know those old standby dishes you use for family meals.

Here's a down-to-earth pot-roast recipe to tuck away. You'll find it useful if you want to take advantage of the grass-fed beef that makes its appearance in the fall and is attractively priced. And here's a pot-roast premium—a recipe for a quick beef-and-vegetable pie to be made from the leftover meat.

Two-Meat Pot Roast

Ingredients: 4 pounds beef (rump or chuck or round), 2 tablespoons lard or bacon fat, 2 teaspoons salt, 1/2 teaspoon pepper, 1 cup water, 6 medium-sized potatoes (peeled), 12 medium-sized carrots (scrapped), 12 white onions (peeled), 3 tablespoons flour.

Method: Heat heavy kettle and melt lard or bacon fat. Brown beef evenly on all sides—this will take about 30 minutes. Sprinkle with 1 teaspoon of the salt and pepper, add 1/2 cup of the water. Remaining water may be added during the cooking as needed. Cover tightly. Simmer over low heat about 2 1/2 to 3 hours, or until meat is almost tender. Add potatoes, carrots, onions, and remaining 1 teaspoon salt, cover and cook 20 to 30 minutes, or until vegetables are tender. Remove meat and vegetables to a hot platter. To thicken gravy, measure pot roast liquid, add water to make 1 1/2 cups. Blend 3 tablespoons flour with 1/2 cup cold water to a smooth paste. Add the flour paste, all at once, to liquid in kettle, stir-

ring briskly to prevent lumping. Cook, stirring constantly, until mixture thickens and boils. Makes 6 servings with additional meat for Quick Beef and Vegetable Pie.

Quick Beef and Vegetable Pie

Ingredients: 6 medium-sized potatoes (peeled and halved), 6 carrots (scrapped and halved), 6 white onions (peeled), 3 tablespoons bacon fat, 3 tablespoons flour, 2 bouillon cubes, 1/2 teaspoon Tabasco, 1/2 teaspoon Worcestershire sauce, 1/2 teaspoon pure monosodium glutamate, 2 1/2 cups water, 3 cups diced leftover pot roast.

Method: Cook potatoes, carrots, and onions in small amount of boiling salted water. While vegetables are cooking, put bacon fat in large heavy skillet; stir in flour, continue cooking until browned,

stirring constantly. In a container put bouillon cubes, Tabasco, Worcestershire sauce, and monosodium glutamate and 2 1/2 cups water. Stir bouillon mixture into browned flour in skillet; cook, stirring constantly, until thickened. Add meat, carrots and onions; heat. Turn in 2-quart casserole. Mash and season potatoes; spoon or put through pastry bag around edge of casserole. Put under broiler heat until potatoes are browned, or bake in very hot (450 F.) oven 15 minutes. Makes 6 servings. Pie may also be made with leftover vegetables and gravy. Use 3 cups diced meat, 2 cups cut vegetables and 2 1/2 cups gravy. Six medium-sized potatoes, cooked and mashed, will make a fluffy border.

Search for Yachtman Curtailed

CHICAGO (P) — After nine fruitless days, the Coast Guard says the widespread search for Philip T. Atwood, wealthy yachtman, has been trimmed to "routine" size. Atwood, 47-year-old industrialist whose home is in suburban Winnetka, sailed off alone from Burnham Harbor in Chicago aboard his 46-foot cruiser, Tyree, Sept. 12.

Twenty-one Coast Guard crews, private shippers, Navy planes and police of four states bordering Lake Michigan took part in the search.

Canadian authorities and officials at all exits of the Great Lakes were alerted. The vast lake was criss-crossed numerous times by water and air.

Capt. Gordon P. McGowan, Coast Guard commander, indicated Wednesday that all possibilities have been exhausted.

Although the case remains "open"—there is no positive evidence that the Tyree sunk with Atwood aboard—the search has settled down to routine, he said.

Atwood's wife, June, former golf champion June Beebe, says she believes her husband might have met with foul play.

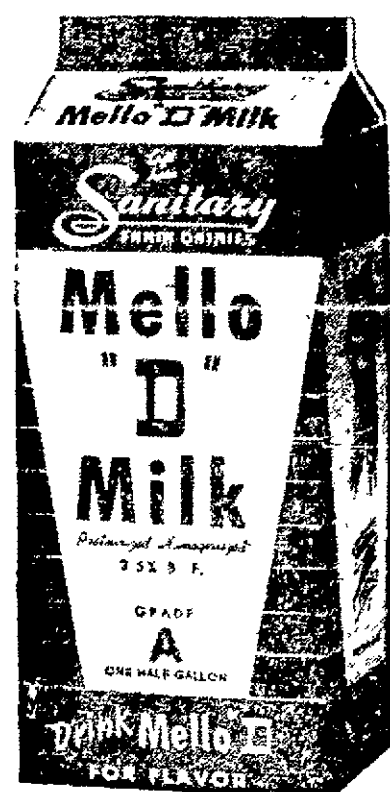

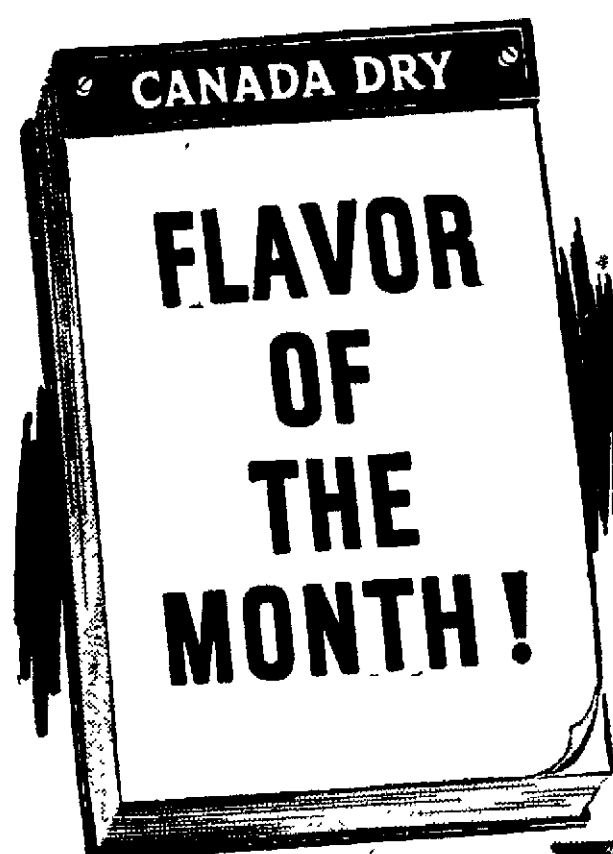

She ruled out the possibility of marital, financial or health troubles as the reason for his disappearance. Atwood is an officer in firms at Chicago and Joliet, Ill.

The Atwoods were to have celebrated their 21st wedding anniversary next Wednesday. They have three teen-age children.

Price Rises Have Started Autos, Gas, TV Sets Only Some of Them

By SAM DAWSON
NEW YORK (U)—Price rises—starting at the production level in the summer—are now popping out on consumer items. Testing time lies just ahead.

Automobiles, gasoline, television sets, hats, floor tiles—one or more manufacturers in these fields have raised prices this week. And the parade of higher prices continues in fields that consumers encounter only indirectly and later on after the boosts raise production costs—electric transformers, oil field equipment, bleached sulphite pulp, nickel-chromium alloys.

NOTICE IS FURTHER GIVEN, that a report of such selection has been filed in the County Court of said County, and application made to said Court for confirmation and appointment of said Electors as Judges of Elections; and that an Order has been entered by the Judge of said County Court, that cause be shown, if any exists, against the confirmation and appointment of said Electors as Judges of Elections, at or before 10:00 o'clock A. M., DST, on the 10th day of October, A. D. 1955, or as soon thereafter as the business of the Court will permit.

NOTICE IS FURTHER GIVEN, that if no cause to the contrary be shown as provided by said Order, such appointments shall be confirmed by order of Court on said last mentioned date, as provided by law.

IN WITNESS WHEREOF, I, Sterling D. Schrock, Clerk of the County Court of said County have hereunto set my hand and affixed the Seal of said County this 14th day of September, A. D. 1955.

dustry for the booming demand for consumer goods has been price paring that offered the public bargains—that the demand could shrivel under the frost of higher prices this fall.

Both, admittedly, aren't sure what the consumer will do. But both expect to know the answer before many more weeks.

The consumer's first interest is likely to be in the higher price tags on the 1956 model cars.

Ford is taking the first step. Its new Fords will be higher by from \$16 to \$39. Its Lincolns already have been raised.

Five Per Cent

Others in the industry haven't announced yet. But many expect price hikes of roughly five per cent.

The auto makers can point to a sizable pay increase for their workers and to the higher prices they must pay for steel, copper and other materials that go into their 1956 models.

Public reaction to the new models and to the higher prices will settle that hot question in the industry.

Hats Go Up

The Hat Corp. of America and the John B. Stetson Co. are raising prices on some of their hat lines—although not all. This follows the doubling of prices of hatter's fur in world markets because of a shortage.

But some of the price news this week makes good reading for the consumer.

Heavy supplies of meat pouring into Midwest markets have been lowering wholesale prices there.

Coal reserves in the Saar basin of Europe are estimated at 5,000,000,000 tons.

Clean an electric toaster only when it is cool and disconnected.

LFL ABNER

John Crabsby on TV
After its sensational TV preview, Hal Yapp's Yappland seems to be taking on egg.
Hal Yapp performed miracles finding real-life counterparts of his fantastic cartoon characters.
There's Shmo White herself, with her seven waiters. Yapp's researchers discovered a real live Brontosaurus in the jungles of the Amazon, for his Land of the Past.
A talking rodent brings the mythical Rickey Rat to life.

Yes, everything in Yappland is real and live, except for Yapp's most popular character, the Hammus Alabamamus, star of "Pig O' My Heart".
This most delicious and lovable of all the pig species is extinct. The best Hal Yapp can do is provide a stuffed replica.
When the kids see this, they scream, "It's a fake!" and run off, crying their hearts out.
This is ruining business.

BUT, KIDS!—WE'VE GOT A TALKING RAT A WHOLE THAT SINGS LIKE NELSON EDDY—REAL PREHISTORIC MONSTERS...

I'M RUINED!—OH, SA! MY KINGDOM FOR A PIG!

Teach Child Bike Safety

By DOROTHY V. WHIPPLE
When can I have a two-wheeler? Almost every child loves a bike. It gives power to go places, freedom and independence. Bikes are good for youngsters for just these reasons.

But bicycles are dangerous, too. Also, all of life is dangerous. We cannot forever protect our children from all danger. We must teach them to live as safely as possible surrounded by the multitude of things that might hurt them.

Learning to use a bicycle safely and well is a good growing experience and one that will help a lot in the not too distant time when your youngster will want to drive your car.

Before you get Bill or Mary that cherished bicycle, better understand yourself the rules and restrictions necessary for safety. Then you have a heart-to-heart talk about the responsibilities of being old enough for this quite grown-up means of transportation. The bicycle needs to be right for the child who is to use it. A bike that fits the child is safer than one on which he can't quite reach the pedals. Many models have adjustable pedals, handle bars and seats to allow for growing.

Good running condition is essential for safety. The child must know how to tighten bolts, keep brakes even, bearings cleaned, chain lubricated, horn and lights in working order. Not only must he know how to do these things but he must remember to do them. Regular parental inspection is a great jog to the memory.

No passengers on a bike. It's fun to take a pal on the handle bars, but it is not safe and must not be done — "even just this once."

On city streets a bicyclist should stay close to the right hand side of the street and if there is more than one bicycle they should be in single file. There should be no zigzagging through traffic.

Never catch a ride by holding to a truck, a bus or a car.

Keep far enough behind other traffic to be able to stop should the other vehicle stop suddenly.

Packages or school books should only be carried in a basket fastened to the bicycle.

Both hands should be on the handle bars all the time except when making hand signals.

Hand signals should be used when stopping, turning left or right. Know the traffic laws and observe them.

serve them. And, Dad, here is where you need to watch your step. You cannot require Steve to obey laws that he sees you ignore when you're driving your car.

Take great care at intersections and look in all directions before crossing. Give right of way to cars and pedestrians.

Watch speed — never so fast that a quick emergency stop cannot be made. Slow around corners. No coasting downhill unless there is a full view of what's at the bottom of the hill.

Get the rules across before you buy the bike. See that they are practiced until they become second nature. Make sure the youngster understands the reasons for all the rules. Inspect regularly. Let your child know that there will be penalties for infringement of the rules. Be pleasant, firm and consistent.

Try not to worry. Children must grow up and carry their own responsibilities. And above all, don't let worry make you nag.

Church Sentence

COLUMBIA, S.C. (P) — A man who flourished a hand grenade when Richland County deputies went to arrest him has been put under a peace bond with the stipulation that he attend church or Sunday school each Sunday with his family for one year.

Magistrate Cal Lawlor sentenced him to serve five days or pay a \$5 fine. The man's wife is to report each Monday whether he went to church the previous day.

There is also a suspended sentence of 30 days in jail or a \$100 fine.

The officers said they were called by the man's wife. He pulled the pin of the grenade which failed to go off because it did not contain any powder.

SPRINGFIELD, Ill. (P) — Eldon Smith was sentenced to one to two years after he pleaded guilty to a charge of larceny of a motor vehicle.

He took his nephew's car to Terre Haute, Ind., where he proceeded to drink away his means of transportation. Asst. State Attorney J. Waldo Ackerman Jr., said Smith first sold the car radio and spent the proceeds for drinks. Drink by drink he sold the battery, the tires and finally the radiator.
